

72 Hour Kit

Each person should have a backpack with their clothing, some food and emergency blanket in it, if space allows a few of the smaller items (soap, uno cards, etc.) can be divided among the family members. The larger items should be packed away in a larger "family" kit, like a Rubbermaid Container, a large duffle bag or similar item.

Be sure to pack copies of personal documents and keep them sealed in Ziploc bags. Each person should have his/ her own as well as the entire family's copies in the family kit. (All of your original documents should be in a safe deposit box at your bank.)

In the event of an evacuation each person in the family is responsible for grabbing his backpack and gallon of water and making sure he has shoes on his feet. The "family" size kit should be easily accessible and should be small enough to fit in the trunk of the car or should be portable to carry away from your home if necessary.

You should also never let the fuel in your car fall below half.
